

Z Tags Tissue Tagger

Product Description

Designed to apply the Z Tags Tissue Sampler and Tissue Sample and Tag range, the Tissue Tagger is easy to load and the process of taking a sample is almost identical to tagging an animal.

The Tissue Tagger is a time saver if you're applying the Tissue Tag and a second visual management tag because you don't need to switch taggers. Or if you're taking a tissue sample and notice that an electronic or visual tag is missing, you can apply the missing tag with the same tagger.

The Tissue Tagger is strong, durable and reliable.

Technical Specifications

Dimension (when closed)	242 mm x 90 mm x 32 mm
Dimension (when open)	270 mm x 150 mm x 32mm
Pin (Ø)	3.5 mm
Weight	535 g
Material	Polyamide PA6/POM UV protected Carbon Steel with anticorrosion plating
